Hi,

Please search SEQ ID NOs: 135 (NA) and 136 (AA) in 10/063743,
In issued and commercial databases.

Also,

Please search the nucleotide encoding SEQ ID NO: 136.

Please do a word search of the nucleic acid with a word size of 10 nucleotides and
a word search of the prtein, with a word size of 6 amino acids.

AND on the EST databases, in particular, I need enough hits to get at old art (~50).

Happy Holidays,
Thanks,
Seyon.
